**HENDERSON *for* CONGRESS**  
**ON THE ISSUES**

*"My approach to making policy decisions will follow how I've operated in the private sector for decades. Get the facts, understand the science, listen to experts on the ground who personally understand the issue and then make the best decision I can for the people of our district. The positions in this document reflect that process and I look forward to discussing these ideas with you on the campaign trail." - Beth Henderson*

## THE BUSINESS OF CARING

Starting out of college, Beth was a nurse and the caring hand that patients needed in their time of need. With her firsthand experience helping patients, Beth began a career of advocating for those who required assistance navigating their healthcare needs.

## REAL WORLD EXPERIENCE

- Occupational health nurse and marketing manager
- Field medical case manager
- Regional manager overseeing 28 nurses in a 4 state region
- Founder of The Rehab Connection, a medical case management firm
- Co-founder and CFO of Achieva Inc., an agricultural technical training firm
- Farm Manager
- Mother of two children

## CONSERVATIVE REPUBLICAN

Beth is a lifelong Republican who understands the needs of everyday Hoosiers. With conservative core principles, Beth is ready to take the reins in Washington and bring results home to Indiana.

## REFORMING HEALTHCARE

### REDUCING THE COST

With healthcare costs skyrocketing, Congress must take action to help everyday Americans better afford the care they deserve. Rooting out waste, fraud, and abuse of the system is critical to reducing premiums. Allowing medical insurers to compete for business across state lines will create more affordable plans and increase quality.

A 2019 study said that 20% of Emergency Room bills had a previously unknown charge for the patient to pay for. Surprise medical bills and shady business practices by healthcare insurers and providers must stop. Beth uniquely understands what it will take to ensure patients and their families are getting a fair deal.

Congress should streamline the FDA regulatory process to safely and affordably increase patient access to critical drugs.

### INCREASING ACCESS

Rural Americans need better access to healthcare providers and Congress can take action to incentivize medical professionals to work outside of the major metro areas. Every Hoosier deserves to have access to outstanding medical care, but the system often times leaves people behind.

### CARING FOR THOSE IN NEED

As a nurse and later a medical case manager helping patients and their families navigate the healthcare system, Beth has seen the bureaucracy first hand. We must ensure that patients with pre-existing conditions have access to care while also keeping costs under control for Americans.

### PRIVATE MARKET SOLUTIONS

Beth will bring her experience to Congress and introduce real solutions, not rhetoric. The increased costs, taxes, and reduction of choices caused by the ACA and proposed single payer government health plans are not the answer.

### EXPAND MENTAL HEALTHCARE

We must reduce the stigma around mental healthcare for children and adults. Beth will work to ensure every American who needs help has access to mental health professionals.

## CREATING OPPORTUNITY & JOBS

### WORKFORCE DEVELOPMENT

A stable and trained workforce allows job creators to plan effectively and expand operations - creating more opportunity for all. As a job creator herself, Beth understands the importance of matching training and education to the jobs and careers that are available. She will ensure education decisions stays local, apprenticeships are created for industry to help train students, and adult education opportunities are readily available. Beth will also make it a priority to support entrepreneurs and mentor young women who aspire to a career in business and other leadership roles.

### TECH, BUILDING, AND TRADES

Supporting the key industries that drive job creation and prosperity in our district is critical. Beth will always be a leading advocate for these and other key industry sectors.

### CUT REGULATIONS

Job creators and businesses across America are seeing how cutting burdensome and redundant regulations can help spur economic growth. As a entrepreneur and small business owner, Beth knows firsthand how excessive rules and regulations can stifle expansion and investment. She will be an advocate for business in Congress, reducing the size of government and opening the door to prosperity.

### PASS THE USMCA

Trade is critical to the Indiana and American economy. Beth supports the USMCA and will be proud to cast her vote in support of this important trade deal. From farming to high tech, the USMCA will help create new opportunities and secure America's place as an economic leader for generations to come.

### EXPAND RURAL CONNECTIVITY

Beth will push for increased access to high speed internet in our rural communities. High speed connectivity will help our small businesses including farms compete and create new jobs in Indiana's Fifth District. Our next generation of Hoosiers need access to high speed to be competitive in today's fast paced world.

## STANDING WITH AGRICULTURE

### PUT FARMERS FIRST

As a member of Congress and the voice of Indiana's Fifth Congressional District, Beth will stand for our farmers, the AG industry and the communities built around the rich traditions of harvesting the land.

### BETTER TRADE DEALS

Farmers and the agriculture industry need an advocate in Congress to work towards better trade deals. Support ending the trade imbalances with foreign nations, while bringing American goods and commodities to the international marketplace is important to the future of Indiana.

### GET OUR PRODUCTS SOLD

Tariffs can be important to solving the overall trade imbalance, but Beth will not allow Indiana farmers to be used. She will be a vocal leader on the tariff issue and ensure Hoosier products get to market.

### WORK PERMITS & IMMIGRATION

Congress must take action to fix the immigration system and worker visa program. Migrant workers are important to harvesting and working Hoosier's farms, so we must ensure this part of the workforce is part of a comprehensive solution to the larger issue.

### RENEWABLE FUEL STANDARD

Beth supports efforts to ensure the Renewable Fuel Standard (RFS) remains in place and ethanol production continues to play an important role in America's energy independence.

### TAX REFORM FOR FARMERS

America's farmers feed the world and like the traditions we hold dear, the land we harvest should be passed down to the next generation without excessive taxation.

## PROTECTING LIFE & LIBERTY

### PRO-LIFE

Children are our future and we are their voice, so as a member of Congress, Beth will be a champion for life and the unborn.

Beth is also pro-adoption and will work to make adoption as available and streamlined as possible.

### PRO-SECOND AMENDMENT

The Second Amendment is a God given right, protected by the Constitution. Shall not be infringed is not a suggestion, but the ultimate word of law. Beth believes in the individual's right to protection and self-preservation. She will vote to protect gun owners and the rights of every law-abiding American. We must enforce the laws that are currently on the books and hold criminals accountable for their actions.

With training and good stewardship, the traditions of hunting and shooting sports should be passed along from generation to generation.

### UPHOLD THE CONSTITUTION

The Constitution of the United States of America is not a living or changing document. Created by our Founding Fathers, the Constitution is the guidebook in which we base our government and protect our citizens.

Government overreach is unconstitutional and Beth will stand against any infringement upon the American people.

### SAFE & SECURE AMERICA

Protecting life means keeping America safe and secure in an ever-changing world. From building the greatest fighting force in the world to investing in new technological advances, America must remain the only true superpower.

Securing the homeland starts with border security and making sure we have control over who comes in to our country while encouraging legal immigration.
